MultiConnect® rCell 100 Series
Cellular Routers supporting LTE Cat 4, Cat M1 & NB-IoT

MultiConnect® rCell 100 Series of industrial cellular routers, optimized for secure M2M (machine-to-machine)/Internet of Things (IoT) applications, with mPower™ Edge Intelligence embedded software, offering a robust Ethernet or serial network interface platform ready to deploy. The intuitive user interface and cloud device management allows for quick configuration and over-the-air upgrades. Enhanced with features such as WAN failover, secure software updates, advanced firewall and routing configuration, and Certificate Management, the MultiConnect rCell 100 Series creates an ideal environment for secure and redundant communications critical to the reliability of remote monitoring systems in a variety of industries.

BENEFITS
• Lowest total cost of ownership
• Long and stable lifecycles
• Certified and carrier approved

FEATURES
• 4G-LTE (Cat 4, Cat M1 & NB-IoT)
• Optional GPS & Wi-Fi/BT capabilities
• Flexible Web API for developers based on RESTful JSON over HTTPs
• Ruggedized enclosure
• Designed, manufactured and tested in ISO 13485 facilities
• Remotely hosted device management platform
• mPower Edge Intelligence embedded software

HARDWARE SPECIFICATIONS

Models | MTR-L4G1 | MTR-LNA7 | MTR-LEU7
--- | --- | --- | ---
Cellular Radio | MTQ-L4G1-B02 | MTQ-LNA7-B02 | MTQ-LEU7-B02
Cellular Performance | 4G - LTE Category 4 | 4G - LTE Category 4 | 4G - LTE Category 4
Cellular Failback | 3G - HSPA +, 2G - GPRS | 3G - HSPA+ | 3G - HSPA +, 2G - GPRS

Frequency Band (MHz)

- **4G FDD**: B1(1900), B2(1900), B3(1800), B4(AWS1700), B5(850), B7(2600), B8(900), B12/B13(700), B18(1900), B19(1900), B20(1800), B25(1900), B26(850), B28(700)
- **4G TDD**: B38(2600), B39(1900), B40(2300), B41(2500)
- **3G**: B2(1900), B3(1800), B4(AWS1700), B5(850), B6(800), B8(900), B9(800), B19(1900), B2(1800), B5(850), B8(900)

Packet Data*

- **4G-FDD**: Up to 150 Mbps peak downlink, up to 50 Mbps peak uplink
- **4G-TDD**: Up to 150 Mbps peak downlink, up to 30 Mbps peak uplink

Diversity/MIMO

- Rx Diversity and MIMO DL 2x2

SMS

Point-to-Point Messaging, Mobile-Terminated SMS, Mobile-Originated SMS

Input Voltage

- 7V to 32VDC

Wi-Fi/Bluetooth (-B10 Models)

- Wi-Fi: 802.11a/b/g/n (2.4 & 5 GHz)
- Bluetooth: Classic 4.1 and BLE

GPS/GNSS (-B10 Models)

- GNSS connections: 3
- GNSS Systems Supported: (default: concurrent GPS/QZSS/SBAS and GLONASS)

LEDs

- POWER / STATUS / Modem: CD LED (Carrier Detect), LS LED (Link Status) / Signal Strength: 3 LEDs / Ethernet: Link, Speed / Wi-Fi (-B10 models only)

Connectors

- CELL1, CELL2
- (2) Female SMA (Cellular Antenna)
- Female SMA (GPS Antenna)

Physical Description

- Dimensions (L x W x H): 4.17" x 3.0" x 1.15" (10.6 cm x 7.6 cm x 2.9 cm)
- Weight: 0.51 lbs (0.231 Kg)
- Chassis Type: Anodized aluminum (blue) / (IP-Rating: Designed for IP30)

Environmental

- Operating Temperature: -40° to +176° F (-40° to +80° C)
- Storage Temperature: -40° to +185° F (-40° to +85° C)
- Humidity: Relative humidity 15% to 93% noncondensing

Certifications

**EMC Compliance**

- **Australia/New Zealand**: CISPR 32, ICES-003 Class B
- **US**: FCC Part 15 Class B

**Radio Compliance**

- **Europe**: RED, Article 3.1b
- **Canada**: ICES-003 Class B
- **US**: FCC Part 15 Class B

**Safety**

- **Australia/New Zealand**: AS/NZS 60950-1
- **Canada**: cUL 60950-1, CUL 62368-1
- **Europe**: IEC 60950-1, IEC 62368-1
- **US**: UL 60950-1, UL 62368-1

**Mobile Network Operator Certifications Available (Contact MultiTech for Details)**

- **Canada**: Rogers, Telus
- **US**: T-Mobile, US Cellular

**Mobile Network Operator Certifications Available (Contact MultiTech for Details)**

- **Canada**: Rogers, Telus
- **US**: T-Mobile

**Quality**

- IEEE 802.11: Cold Temp
- IEEE 802.2: Dry Heat

**Warranty**

2-Years / www.multitech.com/legal/warranty

* Actual performance speeds may be affected by a variety of attributes such as cell tower distance, data loads, packet sizes, etc.
** MTG-LNA7-B02 is PTCRB, AT&T, Bell, Telus and Verizon approved
† Device has been tested up to +85° C, UL Recognized @ 40° C, limited by AC power supply, UL Recognized @ 60° C when used with the fused DC power cable, part number FPC-532-DC.

**Programmable embedded software provides enhanced security and enables task execution at the edge for reduced latency and cost optimization.**

mPower® Edge Intelligence embedded software delivers programmability, network flexibility, enhanced security and manageability for scalable Industrial Internet of Things (IIoT) solutions. mPower simplifies integration with a variety of popular upstream IoT platforms to streamline edge-to-cloud data management and analytics, while also providing the programmability and processing capability to execute critical tasks at the edge of the network to reduce latency; control network and cloud services costs, and ensure core functionality – even in instances when network connectivity may not be available.

mPower software specifications can be found [here](#).

---

**Cloud-based Application Store and IoT Device Management**

MultiTech DeviceHQ® is a cloud-based tool set for managing the latest generation of MultiTech devices. It incorporates all the functionality of MultiTech Device Manager, on which so many M2M and IoT applications already rely for remote monitoring, upgrades and configuration of entire device populations – whether one or 1 million.
HIGHLIGHTS

Security

The MultiConnect rCell 100 Series of cellular routers use IPSec industry standard data encryption to provide high performance, secure LAN-to-LAN VPN connections with 3DES or AES encryption using IKE and PSK key management. Support for five concurrent VPN tunnels. Additionally, a private, secure digital signature with integrity check update technique is now available, minimizing file damage, tampering or loading of invalid firmware. MultiTech signs and distributes firmware updates through a secure standard firmware distribution process and verifies the firmware signature before installation of the firmware for maximum device integrity.

Wi-Fi/Bluetooth Specifications

The Wi-Fi interface can be set up in 802.11 a/b/n/g Access Point (AP) or client mode. In AP mode, the router can support up to 5 client connections. The Bluetooth serial interface allows you to set up a transparent data pipe from a Bluetooth device to a remote server. The router can be configured using TCP or UDP protocols and supports client and server modes giving you the flexibility you need for your particular application. RFCOM and SPP profile support. Contact MultiTech about additional Bluetooth profile support.

Services & Warranty

MultiTech’s comprehensive Support Services programs offer a full array of options to suit your specific needs. These services are aimed at protecting your investment, extending the life of your solution or product, and reducing total cost of ownership. Our seasoned technical experts, with an average tenure of more than 10 years, can walk you through smooth installations, troubleshoot issues and help you with configurations.

Technical Support Services

At MultiTech, we’re committed to providing you personalized attention and quality service while providing you a quick response to your product support needs. We have several options of support for you to choose from.

For additional information on Support Services as well as other service offerings, please contact your MultiTech representative or visit www.multitech.com/support.go
