

Product Change Notification

MultiConnect[®] rCell 100 Series Cellular Routers

MTR-LNA7 Models Updated Cellular Radio Firmware

Date: January 10, 2022

Product Change Notification (PCN) Number

PCN 09212021-003 (MTR-LNA7)

I. Overview

MultiTech announces updated cellular radio firmware for MTR-LNA7 devices.

The purpose of this Product Change Notification is to inform customers that updated cellular firmware will begin shipping from MultiTech and that a delta file update is available for upgrading current device fleets.

New cellular radio firmware version: **EG95NAFBR05A04M4G 30.005.30.005**

II. Suggested Action Plan

We recommend that the following actions be taken.

Customers

- Please review the information in this PCN and forward to others within your organization who are actively involved with the deployment of the MultiConnect rCell.

Schedule

- Review the [Ordering Part Numbers Impacted](#)
- Technical inquiries: support.multitech.com
- Sales inquiries: email sales@multitech.com

Distributors

- Forward this announcement to others within your organization who are actively involved in the sale or support of cellular routers
- Notify existing customers of this upcoming change

III. Cellular Radio Firmware Release Notes

The document below provides the release notes for EG95-NA-FB firmware version **EG95NAFBR05A04M4G 30.005.30.005**. It describes major changes compared to EG95-NA-FB firmware version **EG95NAFBR05A04M4G 01.005.01.005**. For a detailed listing of all changes, refer to the EG9X AT Command Set.

IV. Schedule

All devices shipping from MultiTech with a date of manufacture (DOM) of December 2021 and later will include the latest cellular radio firmware

- Availability: Starting September 2021
- Date of Manufacture: 2021.09.21 and later
- See [part numbers impacted](#) for details

Identifying Date of Manufacture

The chassis label (located on the back of each MTR-LNA7 device) includes critical device information, including date of manufacture.

V. Ordering Part Numbers Impacted

The following ordering part numbers are impacted by these updates:

Model Name	
Ordering Part Numbers	
MultiConnect[®] rCell 100 Cellular Routers	
Status: Active	Status: Active
MTR-LNA7-B07	MTR-LNA7-B10
MTR-LNA7-B07-US	MTR-LNA7-B10-US
MTR-LNA7-B07-HZ	MTR-LNA7-B10-HZ

VI. Radio Firmware Upgrades – Deployed Devices

The device UI can be used to upgrade radio firmware. First, obtain the appropriate binary upgrade file for the cellular radio in your device.

1. Open the **Radio Firmware Upgrade** page under **Cellular**.
2. Enter the MD5 Check Sum or hash under **File MD5**.
3. Place the downloaded binary or delta file on your local computer. Browse for the file and select it.
4. Click **Start Upgrade**. The system should reboot automatically after a successful download. Otherwise, after ten minutes, the device may be rebooted manually.
5. Check that the cellular radio firmware has been updated. Refer to the **Current Radio Firmware** on the **Radio Firmware Upgrade** page or see the firmware version on the **Radio Status** page under **Cellular**.

NOTE: If a timeout failure occurs while upgrading cellular firmware using the UI and a cellular connection, first try to boost the signal strength and attempt it again. Otherwise, update via an Ethernet connection.

VII. MultiConnect[®] rCell[®] 100 Series Cellular Routers

The MultiConnect rCell is a compact, intelligent and fully-featured communications platform that provides cellular capabilities for fixed and mobile applications. It is intended for use in settings such as:

- Remotely monitoring solar micro-inverters, tanks, pipelines, meters, pumps and valves in any energy, utility, or industrial application.
- The MultiConnect rCell 100 series family has also been successfully deployed by professionals in emergency services, vending, remote patient monitoring, renewable energy systems, process automation and mobile applications (truck, rail, and boat).

The MultiConnect rCell 100 series (MTR-xx) of cellular routers are a part of the MultiTech comprehensive portfolio of cellular connectivity products optimized for M2M (machine-to-machine). The MultiConnect rCell comes with no cost access to DeviceHQ[®] which is MultiTech's cloud platform service to monitor and manage deployed MultiConnect rCell cellular routers in the field.

ATTACHMENT I
Identifying Cellular Radio Firmware Version

There are multiple ways of identifying the cellular radio firmware version on an MTR-LNA7 device:

1. **DeviceHQ:**

MultiTech DeviceHQ[®] is a cloud-based tool set for managing the latest generation of MultiTech devices, including the MTR devices. On the **DeviceHQ Device Page**, select one of the MTR-LNA7 devices. The device overview that appears will show the current **Radio Firmware** version and **Radio Model**.

2. **mPower User Interface**

- The Radio Status page displays a summary of the configuration settings for the cellular module in the MTR device
- Module Information – Firmware Version: Module firmware version

3. **Product Packaging**

The carton label for each MTR includes the version of cellular radio firmware included.

300 – 0530005	EG95NAFBR05A04M4G 30.005.30.005	Current Firmware Shipping in September 2021
010 – 0501005	EG95NAFBR05A04M4G 01.005.01.005	Original Firmware Shipping in February 2020
